**SANHARP 2nd ANNUAL
POSTGRADUATE CONFERENCE,
12 – 14 October 2011,
iThemba LABS
CAPE TOWN**

**science
& technology**
Department:
Science and Technology
REPUBLIC OF SOUTH AFRICA

SANHARP will be hosting the Nuclear Energy Expo on **Thursday, 13 October and Friday, 14 October 2011** and, therefore, cordially invites your organisation to participate as an exhibitor.

The Postgraduate Conference

The South African Nuclear Human Asset & Research Programme (SANHARP), in collaboration with iThemba Labs Cape Town, is hosting the 2nd Annual Postgraduate Conference to showcase the research work of SANHARP-sponsored postgraduate students. The conference is aimed at promoting networking amongst various stakeholders within the South African nuclear sector, in particular in the research sphere.

The conference will cover all aspects of nuclear-related research conducted in academia and industry. Group leaders will present the overall research theme/objectives of a research centre, followed by group members who will present on their specific research areas. The following themes will be covered:

- Modelling
- Materials & Applications
- Radiation Science and Reactor Technology
- Waste Minimisation
- Radiation Protection and Safety
- Uranium-based Research
- Other (systems, thermodynamics, etc.)

Exhibition Benefits

SANHARP continuously explores new ways and partnerships to create a base for industry key players to discuss issues affecting the Nuclear Sector in South Africa as well as the required skills for the sector.

The Exhibition provides your organization with an opportunity to showcase career and vacation work opportunities, postgraduate learnership/internship programmes, brand identity and specific employment brand or educational opportunities available.

The exhibition also enables your organisation to directly interact with key industry players, universities, research institutions and role models in various science, engineering and technology (SET) careers, and will include a showcase of student projects within a science and engineering careers theme. This year, Grade 12 learners from SANHARP-adopted schools in the Western Cape will form part of the visitorship visiting exhibition stands to gain exposure in nuclear and science-related careers to enable them to make informed choices.

Exhibition Infrastructure & Costs

SANHARP will charge a nominal fee of R5 500.00 to R7 500.00 for the cost of supplying the exhibition infrastructure, catering and logistics for **both days**. Light meals and refreshments for exhibitors will also be provided on each day. The exhibition stand will comprise a 3m (deep) x 3m (wide) maximum height of 2.5m shell scheme system, two spotlights, plug point, carpeting and stand furniture. Should you have additional needs, these can be catered for through our exhibition partner at an additional cost determined per individual requirement. Your company will also be responsible for costs such as accommodation, transport and any other additional meal costs.

The Exhibition will be held at the iThemba LABS Exhibition Hall (directions to the venue will be communicated to you on confirmation of your participation). If you would like to confirm your participation at this event as an exhibitor, please note that we require your participation for **both days (13 & 14 October 2011)**. Setup is expected to commence on Wednesday 12 October 2011.

We look forward to your support in this initiative, and urge you to take advantage of a unique opportunity to interact with science and engineering postgraduate students, Grade 12 learners, other Industry and research-based Institutions within the Nuclear Sector.

Please e-mail Naomi Haasbroek on naomi@tlabs.ac.za or call her directly on Tel: +27 21 843 1259 or Tsibiso Mohlomi on Tsibiso.mohlomi@nrf.ac.za to book your exhibition stand. Due to the limited number of stands available, please note that availability is based on a first come, first served basis.

Please RSVP by latest Monday, 20 September 2011 to avoid disappointments!

Regards

Tsibiso Mohlomi
