Nuclear Structure Studies at the NSCL

Friday, 24 September 2021 11:30 (30 minutes)

The National Superconducting Cyclotron Laboratory on the campus of Michigan State University provided fast, stopped, and reaccelerated beams of rare isotopes for nuclear science research. This presentation will give an overview of the nuclear structure program with representative examples showcasing a complementary set of experimental techniques.

Primary author: GADE, Alexandra (NSCL/FRIB)

Presenter: GADE, Alexandra (NSCL/FRIB)

Session Classification: Session 12

Track Classification: Nuclear Structure, Reactions and Dynamics
