

African Nuclear Physics Conference 2021

Monday 20 September 2021

Session 2: Nuclear Structure, Reactions and Dynamics (11:30-13:30)

-Conveners: Nasser Kalantar-Nayestanaki

time	[id] title	presenter
11:30	[234] Complementarity and Future Prospects on experiments using the high-resolution magnetic spectrometers at RCNP and iThemba LABS	TAMII, Atsushi
12:00	[217] Electric and magnetic dipole response in ^{58}Ni from inelastic proton scattering	BRANDHERM, Isabelle
12:20	[166] Transfer reactions to populate the PDR in ^{96}Mo	KHUMALO, Thuthukile
12:40	[183] Low-lying dipole and quadrupole states as new excitation modes	LANZA, Edoardo G.
13:00	[164] In-beam gamma-ray spectroscopy at RIKEN	WIMMER, Kathrin
