Physics results and perspectives at GANIL/SPIRAL2

Sunday, 3 December 2023 11:25 (25 minutes)

GANIL/SPIRAL2 presently offers unique opportunities in nuclear physics and in many other fields that arise from not only the provision of low-energy stable beams, fragmentation beams, re-accelerated radioactive species, and recently neutron beams but also from the availability of a wide range of state-of-the-art spectrometers and instrumentation. A few examples of recent highlights will be presented together with upcoming new scientific opportunities with ongoing projects.

Attendance Type

Remote

Primary author: SAVAJOLS, Hervé (GANIL)

Presenter: SAVAJOLS, Hervé (GANIL)

Session Classification: Session 14

Track Classification: Invited Talks
