Just before the International African Symposium on Exotic Nuclei, IASEN 2024, iThemba LABS and JINR will be coordinating a **Student School**, on the **8th of December 2024**. The School aims to provide an enriching experience to students by expanding the topics covered at IASEN2024. The lectures will be given by world experts:

**Production of Exotic Nuclei**

- Iain Moore, JYFL

**Material Science and Exotic Nuclei**

- Hillary Masenda, Wits

**Nuclear Medicine and Exotic Nuclei**

- Nick van der Meulen, PSI

**Accelerator Physics**

- Timur Kulevoy, ITEP Moscow

**Beta-delayed charged particle spectroscopy**

- Marek Pfutzner, Warsaw
