

The African Nuclear Physics Conference 2025 (ANPC 2025)

Tuesday 25 November 2025

Session 6: Facilities and Instrumentation (14:00-15:10)

-Conveners: Grzegorz Kaminski

time	[id] title	presenter
14:00	[92] Highlights from INFN-LNL, the Status and the Future plans of the SPES project	AZAIEZ, Faical
14:25	[60] Characterization of instrumental background in a (p, γ) reaction, studied at the iThemba LABS Tandetron facility	BOKHUTLO, Tshegofatso
14:40	[39] Measurements of angular distributions of light particles at energies of astrophysical interest with GASTLY apparatus	ROMOLI, Mauro
14:55	[79] The DC-140 project: new multipurpose applied science facility at FLNR JINR Accelerator Complex.	MITROFANOV, Semen
