High-performance Signal and Data Processing: Challenges in Astro- and Particle Physics and Radio Astronomy Instrumentation / Programme

Tuesday 28 January 2014

High-performance Signal and Data Processing: Challenges in Astro- and Particle Physics and Radio Astronomy Instrumentation

Tuesday 28 January 2014

Plenary session II - G17 (13:30-17:30)

time	[id] title	presenter
13:30	[98] The Computing Model of ATLAS	Dr YACOOB, Sahal
14:15	[99] An Overview of SANSA Earth Observation Data Processing and Storage: Challenges and Opportunities	Dr MANGARA, Paida
15:00	[68] Interferometry	Prof. DAVIDSON, David
15:30	Coffee Break	
16:00	[38] Readout Electronics of the Alice Detector	Dr DIETEL, Tom
16:45	[42] The Data Pipeline of the AGILE Space Telescope	Prof. CHEN, Andrew

High-performance Signal and Data Processing: Challenges in Astro- and Particle Physics and Radio Astronomy Instrumentation / Programme
